

HELI

FLY FISHING

AT NIMMO BAY

At Nimmo Bay, we offer exclusive helicopter-based fly fishing with unparalleled access to 50,000 square miles of extraordinary wilderness.

Imagine flying to the most remote river systems of the Great Bear Rainforest to cast your fly into untouched waters.

Your private helicopter remains with you throughout the day allowing you to experience multiple fishing destinations in the same day. From estuary to alpine, this is the fishing trip you have been dreaming of.

HELI-FLY FISHING EXPERIENCE

SEASONALITIES

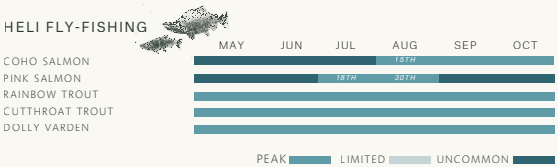

The fishing season is variable depending on many factors including weather patterns, local rainfall, and annual returns. Trout fishing, including rainbow, cutthroat, and Dolly Varden char, is available throughout our season from May to October. From May to August (before the salmon run), our guests are able to enjoy the wilderness, relax river-side and cast for trout. This is a great option for families and folks who are interested in giving fly fishing a try but most avid fly-fishers prefer to visit us later in the season to target salmon.

Our area is most well known for the salmon run, which typically starts mid-late August with the pink salmon return and goes into late October with variation depending on the weather. We primarily target coho and pink salmon.

Helicopter-fly fishing is a pre-booked trip enhancement as our office team will pre-arrange classified rivers fishing licenses and line up the most suitable guides.

Up to 4 guests — $18,000 per day

***Inclusive of 1 exclusive helicopter per day, guided fly fishing experiences, freshwater fishing licenses*
For groups 5+ multiple helicopters can be added. Please speak with our team for more information and rates

OUR INFOGRAPH IS BASED ON YEARS OF EXPERIENCE AND KNOWLEDGE, HOWEVER WE CAN NEVER GUARANTEE WILDLIFE OR FISHING AS ALL PROGRAMS ARE BASED IN NATURAL SETTINGS AND ARE SUBJECT TO WHATEVER MOTHER NATURE DECIDES.

FISHING GEAR

Nimmo Bay provides all the outerwear needed for your adventure including: fishing waders, boots, wool socks, fleece pants, rain jackets and flies. We can supply fly-fishing rods but we suggest that avid fishers bring their own preferred fly-rod. We recommend bringing a 7 / 8 Wt. - 4 piece fly rods with reels. The reels should have a floating 7 / 8 Wt line with a sink tip and the leaders should be 10 lb, 9 feet and tapered.

SUSTAINABILITY

At Nimmo Bay, sustainability is a core value in everything we do. As healthy fish stocks are vital to the ecosystem of the Great Bear Rainforest, we are proud to practice catch and release fishing using single barbless hooks and exclusively offer Fly Fishing experiences.
